Screening Pathway for Liver Toxicity in Dermatology Patients Taking Methotrexate for Psoriasis

1. Introduction and Who Guideline applies to

This guideline covers the recommended management for all adult patients treated with methotrexate for psoriasis under the care of dermatology in University Hospitals of Leicester and the LLR Alliance.

2. Guideline Standards and Procedures

See Appendix 1.

3. Education and Training

Changes e.g. use of Fatty Liver Index screening tool, to be disseminated to dermatology doctors and specialist nurses at Continuing Professional Development session. The need to repeat this session in future will be based on compliance when monitored.

4. Monitoring Compliance

What will be measured to monitor compliance	How will compliance be monitored	Monitoring Lead	Frequency	Reporting arrangements
Proportion of patients taking methotrexate for psoriasis managed in concordance with guideline	Clinical audit	Dr Matthew Scorer	After 6 months then depending on concordance	Audit report and departmental presentation
