

Cover report to the Trust Board meeting to be held on 5 May 2022

	Trust Board paper G
Report Title:	Quality Committee – Committee Chair’s Report
Author:	Ms A Moss – Corporate and Committee Services Officer

Reporting Committee:	Quality Committee (QC)
Chaired by:	Ms V Bailey – Non-Executive Director
Lead Executive Director(s):	Mr A Furlong – Medical Director Ms N Green – Deputy Chief Nurse Mr J Melbourne – Chief Operating Officer
Date of meeting:	28 April 2022

Summary of key public matters considered by the Committee:

This report provides a summary of the key issues considered at the Quality Committee meeting on 28 April 2022 (involving Ms V Bailey, Quality Committee Non-Executive Director Chair; Professor T Robinson, Non-Executive Director; Mr J Worrall, Associate Non-Executive Director; Ms G Collins-Punter, Associate Non-Executive Director; Dr G Sharma, Associate Non-Director; Mr A Furlong, Medical Director; Ms N Green, Deputy Chief Nurse; Mr J Melbourne, Chief Operating Officer; Miss M Durbridge, Director of Quality, Transformation and Efficiency Improvement; and Ms H Hutchinson, Leicester City CCG. (Ms Claire Rudkin Head of Patient Safety; Mr Lisa Lane, Head of Nursing; Ms Penny McParland, Consultant Obstetrician; Ms Caroline Whiteley, Deputy Service Manager/HTA Designated Lead; Ms Judy Gilmore, Head of Operations; Ms Janice Brown, Deputy Lead Cancer Nurse; Mr Simon Pizzey Head of Strategy and Planning; Dr Stella Salta Haematologist Consultant; Ms Colette Marshall, Deputy Medical Director attended to present their respective items).

Recommended Item

- **CQC Statement of Purpose** – The Committee noted that the Trust was required to notify the Care Quality Commission of any changes to its services or registered locations. The changes with respect to the National Centre for Sports and Exercise Medicine and Renal Care were noted.
The report was recommended to the Board for approval.

Resolved items

- **Pertinent Safety Issues** – the Deputy Chief Nurse, the Medical Director and the Chief Operating Officer briefed the Committee on the following pertinent safety issues:- changes to Infection Prevention Controls; move of services to accommodate the interim reconfiguration of ITU; pressures on the Emergency Department, CQC visit.
- **Patient Safety Report** - The Committee considered the monthly patient safety report noting that 12 Serious Incidents had been escalated in March 2022 and that two were Never Events. A summary of the two new Never Events and the main point of learning from the closed Never Event investigation were reported. A total of nine Never Events had been escalated in 2021/22 which was the highest annual number recorded for the Trust. A separate report detailing the Never Event Action Plan was considered at the meeting. **This discussion is highlighted to the Trust Board for information.**
- **External Guidance - Quarter 1-3 NICE report** – The Committee received a report noting the Trust’s compliance with guidance issued by the National Institute for Health and Care Excellence (NICE). The report referenced two outstanding responses which had subsequently been received. The Committee was assured of the Trust’s compliance. **This discussion is highlighted to the Trust Board for information.**
- **Mortuary procedures** - The Committee received a report which set out the actions taken in respect of audit undertaken in summer 2021 which found there had been errors in accounting for products of conception. Work had been undertaken to review processes and improve communication between the Pathology Department and Obstetrics and Gynaecology. It was noted that the establishment of Bereavement Midwives had increased which had a positive impact on process and patient care.
- **Mortuary Security Close Down Report** – The Committee received a report on the actions taken to ensure compliance with a national directive regarding security for the mortuary. The Committee was assured that all the actions, including the outstanding one noted on the report, had been taken and confirmation provided to NHS

Estates. **This discussion is highlighted to the Trust Board for information.**

- **Cancer Harm Quarter 3 Report** - The Committee received an update to the Cancer Harm 2022/23 Quarter 3 report which provided more information in relation to a case of patient harm referenced in the original report. Whilst there had been a delay in treating the patient, the review found that it would have been very unlikely to have changed the eventual outcome.
- **Outpatient Transformation** - The Committee received a report on the transformation of outpatient services focussing on the feedback received from patients. It was noted that as part of the NHS Long-term Plan that the ambition was to offer more virtual appointments and reduce the number of follow up appointments. It was noted there had been no deterioration in the scores the Friends and Family Test with the exception of one aspect of the service. When patients were offered a face to face appointment, which was subsequently changed to a virtual appointment, the satisfaction score was lower. The discussion noted the need to address the rate of 'Do Not Attend' for appointments and the pilot to offer additional support to patients.
- **Thrombosis Committee report** – The Committee received a performance report Venous thromboembolism (VTE) prevention and treatment strategy and governance. The positive performance in Q1-3 21/22 against the Quality Schedule for VTE was noted. The report highlighted key workstreams for to support the strategic direction.
- **Safe Surgery and Never Event Action Plan** – The Committee received a report on the Safe Surgery workstream in UHL's Quality Strategy. It incorporated an update of the Never Event Action Plan and updates from the Consent and Patient Information Committees. Positive progress was noted specifically in relation to improved reporting; launch of the theatre practitioner competency and leadership programme; and trust-wide roll-out of Trauma Risk Management Methodology (TRiM) training. The Local Safety Standards for Invasive Procedure (LocSSIP) accreditation and assurance programme would be restarted. The Trust would be joining a Never Event Collaborative with Imperial College Healthcare, Barts Health, and Royal United Hospitals Bath trusts to share best practice.
- **Any Other Business** – there were no items of additional business.

The following reports were noted: -

- Integrated Performance Report Month 12 2021/22

Public matters requiring Trust Board consideration and/or approval:

Recommendations for approval

- CQC Statement of Purpose

Items highlighted to the Trust Board for information:

- Patient Safety Report (Never Events)
- NICE Quarter 1-3 Report
- Mortuary Security

Matters deferred or referred to other Committees:

- None

Date of next QC meeting:

Thursday 26 May 2022

Ms V Bailey – Non-Executive Director and Quality Committee Chair

Trust Board		

Executive Summary

Context

This paper sets out:

- The requirement to notify the CQC of changes to Services at Trust registered locations.
- Details changes made to the statement of purpose for the National Centre for Sports and Exercise Medicine (NCSEM) to enable paediatric clinics to be hosted at the centre.

A provider must notify the CQC of changes to activity in a regulated site

Under UHL's current CQC registration the NCSEM is registered for Adults only, the Statement of Purpose has been amended to include children from 0-18 years, as children's services would like to utilise the centre for Paediatric clinics

Input Sought

QC is asked to recommend to the Board:

- a) The addition 0-18 years at NCSEM to UHL's registration and Statement of Purpose.

For Reference (edit as appropriate):

This report relates to the following UHL quality and supporting priorities:

1. Quality priorities

Safe, surgery and procedures	[Yes]
Improved Cancer pathways	[No]
Streamlined emergency care	[No]
Better care pathways	[YES]
Ward accreditation	[No]

2. Supporting priorities:

People strategy implementation	[No]
Investment in sustainable Estate and reconfiguration	[No]
e-Hospital	[No]
Embedded research, training and education	[No]
Embed innovation in recovery and renewal	[No]
Sustainable finances	[No]

3. Equality Impact Assessment and Patient and Public Involvement considerations:

- What was the outcome of your Equality Impact Assessment (EIA)?
N/A
- Briefly describe the Patient and Public Involvement (PPI) activities undertaken in relation to this report, or confirm that none were required
N/A
- How did the outcome of the EIA influence your Patient and Public Involvement ?
N/A
- If an EIA was not carried out, what was the rationale for this decision?
N/A

4. Risk and Assurance**Risk Reference:**

Does this paper reference a risk event?	Select (X)	Risk Description:
Strategic: Does this link to a Principal Risk on the BAF?		
Organisational: Does this link to an Operational/Corporate Risk on Datix Register		
New Risk identified in paper: What type and description ?		
None	X	

5. Scheduled date for the **next paper** on this topic:

6. Executive Summaries should not exceed **5 sides** [My paper does comply]

Statement of Purpose, Part 2

Aims and objectives

What are your aims and objectives in providing the regulated activities and locations shown in part 3 of this statement of purpose

We are one of the biggest and busiest NHS Trusts in the country, serving the one million residents of Leicester, Leicestershire and Rutland – and increasingly specialist services over a much wider area. Our nationally and internationally-renowned specialist treatment and services in cardio-respiratory diseases, ECMO, cancer and renal disorders reach a further two to three million patients from the rest of the country.

Spread over the General, Glenfield and Royal Infirmary hospitals, we also have our very own Children's Hospital and work closely with partners at the University of Leicester and De Montfort University providing world-class teaching to nurture and develop the next generation of doctors, nurses and other healthcare professionals, many of whom go on to spend their working lives with us.

We continue to work with many different organisations throughout the world to push the boundaries of research and new surgical procedures for the benefit of our patients, with around 1,000 clinical trials taking place every year. We are now home to an NIHR Biomedical Research Centre which supports key research including lifestyle, diabetes, and cardio-respiratory diseases,

and for the first time we have been successfully designated as an NIHR Clinical Research Facility. We are also extremely proud that we have an Experimental Cancer Medicine Centre and our HOPE Unit is an instrumental factor in delivering clinical trials of new cancer treatments, and is generously supported by the locally-based charity Hope Against Cancer. We are providing access to cutting edge genetic medicine for our patients by participating in the 100,000 Genomes Project. All of this means that thousands of our patients are amongst the first to try the latest medicines and techniques.

Our heart centre at the Glenfield hospital continues to lead the way in developing new and innovative research and techniques, such as surgery with a Robotic Arm, TAVI (Trans-Catheter Aortic Valve Insertion) and the use of the suture less valve in heart surgery. It has also become one of the world's busiest ECMO (extra corporeal membrane oxygenation) centres and the only hospital in the UK to provide ECMO therapy for both adults and children.

We have one of the best vascular services nationally, with more patients surviving longer after following an aneurysm repair (to fix a life threatening bulge in a blood vessel). And we are proud to continue to have some of the lowest rates of hospital-acquired infections, such as C.Difficile and MRSA, in the country.

Our purpose is to provide 'Caring at its best' by living a set of values created by our staff that embody who we are and what we are here to do. They are:

We treat people how we would like to be treated

- We listen to our patients and to our colleagues, we always treat them with dignity and we respect their views and opinions
- We are always polite, honest and friendly
- We are here to help and we make sure that our patients and colleagues feel valued

We do what we say we are going to do

- When we talk to patients and their relatives we are clear about what is happening
- When we talk to colleagues we are clear about what is expected.
- We make the time to care
- If we cannot do something, we will explain why

We focus on what matters most

- We talk to patients, the public and colleagues about what matters most to them and we do not assume that we know best.
- We do not put off making difficult decisions if they are the right decisions
- We use money and resources responsibly

We are passionate and creative in our work

- We encourage and value other people's ideas
- We seek inventive solutions to problems
- We recognise people's achievements and celebrate success

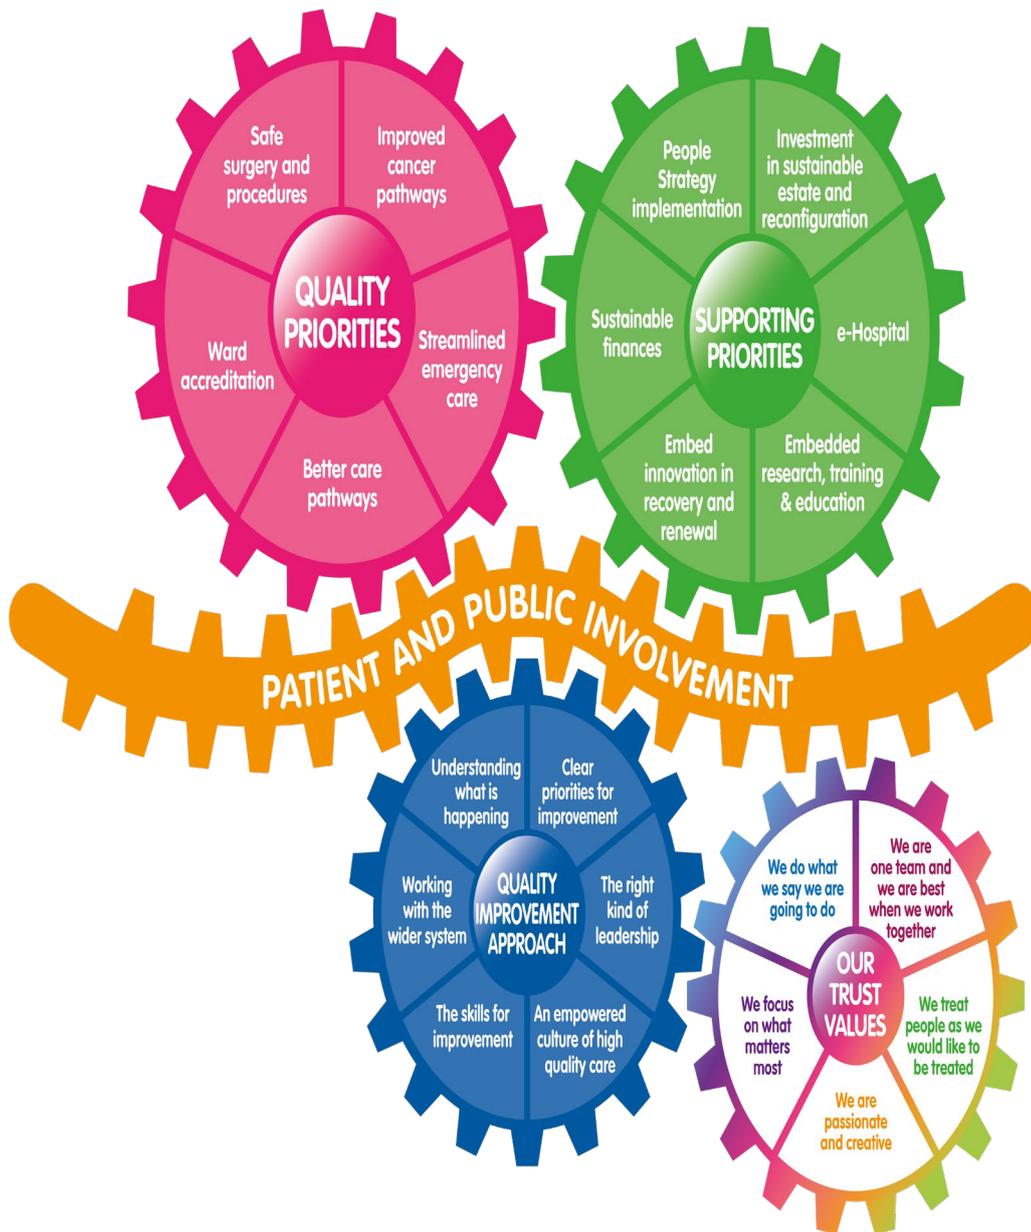

We are one team and we are best when we work together

- We are professional at all times
- We set common goals and we take responsibility for our part in achieving them
- We give clear feedback and make sure that we communicate with one another effectively

In 2019/20, we launched our 3 year quality strategy. Our quality strategy sets out:

- how we will move towards 'becoming the best' through the implementation of an evidence based Quality Improvement methodology (shown out in the blue cog in the diagram) and
- what we will be focussing on as we continue on our journey to become the best (shown in the pink and green cogs)

Linking the cogs together is the chain of patient and public involvement which reminds us that our patients and the wider public are the people we are trying to get this right for. The final cog in the picture outlines our values as these underpin all that we do.

The Alliance

2020/21, mark the seventh year of the LLR Alliance - a partnership between University Hospitals of Leicester, Leicestershire Partnership NHS Trust, the LLR Provider Company who are the providers and the three Clinical Commissioning Groups that cover Leicester, Leicestershire and Rutland (LLR).

The LLR Alliance supports the delivery of a range of elective care outpatients, day-case procedures

and diagnostics from community hospital sites and primary care sites across the county.

All partners in the LLR Alliance are part of an overarching agreement, with shared risk and reward. The provider participants each have a 'pillar contract' based on the National NHS Standard Contract, with the same performance standards and an indicative activity plan which sets out the services that each provider is responsible for delivering. This document refers to those locations where Alliance UHL Pillar activity operates from.

Statement of Purpose, Part 3

Name of location	Leicester Royal Infirmary
Address	Infirmery Square, Leicester
Postcode	LE1 5WW
Business telephone	0300 303 1573
Email	richard.mitchell@uhl-tr.nhs.uk

Description of the location

The Leicester Royal Infirmary has 982 beds and provides Leicestershire's only accident and emergency service (our Emergency Department). It is also the base for our Children's Hospital

Satellite units:

- Rutland Memorial Hospital (satellite unit Rule 8a)
- Feilding Palmer Hospital (satellite unit Rule 8a)
- Coalville Hospital (satellite unit Rule 8a)
- Westcotes Health Centre (satellite unit Rule 8a)
- Heath Lane Surgery (satellite unit Rule 8a)
- Bushloe Surgery, Two Steeples GP Practice (satellite unit Rule 8a)
- Merlyn Vaz Health and Social Centre (satellite unit Rule 8a)
- The Kube (satellite unit Rule 8a)
