Comments – In Month – Variance & Year To Date (YTD) - Variance

- Income is £37.9m favourable to forecast. This is due to £33m from NHSEI for employer pension contribution at 6.3% (£30m – offset by pay) and £3m relating to Covid-19 PPE stock income. Additionally, there is £1.69m relating to Nightingale income above forecast (offset by expenditure), £0.6m for specialised/excluded drugs and devices, Health Education England income of £0.7m, £0.4m relating to private/overseas patients, increased commercial and grant R&I income of £0.7m and LPT income of £0.2m (offset by expenditure).
- The Pay cost variance from forecast reflects the £30m employer pension contribution at 6.3%. Agency pay costs were £1m higher than expected and relate to ESM nursing £0.3m, Vanguard expenditure realignment from non-pay to pay £0.4m and additional E&F agency staff used for the LPT contract £0.2m (offset by income).
- Non pay variance of £2.9m includes Excluded Drugs and Devices £792k, Vanguard VAT credit £590k, Rates rebate £656k, Credit notes re utilities £300k, YTD reconciliation of Waste, Food etc £620k. The donated assets variance against forecast relates to adjusting for £0.5m depreciation based on year end asset register review, £0.3m Hope Charity income and donated ventilators from DHSC £0.2m.

The Statement of Financial Position (SOFP) at 31st March 2022 is presented in the table opposite. The balance sheet fully reflects the impact of 2020/21 draft Accounts adjustments that are being finalised for audit review. The key movements in the balance sheet at M12 were as follows:

- **Non Current Assets**
PPE and intangible assets have increased by £33.1m driven M12 capital spend and partially offset by a depreciation charge.
- **Working Capital**
Trade and other Receivables – Increased by £13.5m, reflecting the timing of income received by the Trust.

Cash Balances – reduced by £16.9m, which is explained in the cash flow slide.

Trade and other payables and accruals – increased by £21.4m, driven mainly by goods received but not invoiced (£10.5m), Supply Chain (£3m) with the remainder made up of various other suppliers. The increase in GRNI was largely driven by the increase in capital works, as the Trust committed over £30m of capital spend in March.

Deferred Income balances – Reduced by £2.4m as LDA income received in previous months was released in M12 to match expenditure.

PDC Dividend – The provision reduced by £8.1m in line with the payment of the second bi-annual payment.

- **Reserves**
I&E reserve - The 2021/22 cumulative deficit on the I&E reserve improved by £8.9m driven by the month 12 surplus and the transfer between the revaluation reserve and the I&E reserve of historical cost depreciation of £5.6m.

Public Dividend Capital - The increase in PDC reflects the cash drawdown of agreed PDC funding in support of the capital programme.

The Trust maintained a cash position at the end of March of £110m.

Cash reserves reduced by £16.9m in March, driven by £120.8m receipts less £136m of outgoing payments.

Receipts were £5.7m lower than the prior month reflecting reduced CCG income received £11.2m lower than previous month due to head room funding received in M11), offset by health education payments received.

Purchase ledger payments of £59.6m were higher in March compared with February (£43.6m). The increases in payables was driven by various payables which became due between February and March, including capital commitments and specific contract payments.

The Trust's Cash Committee is meeting on a bi-weekly basis. Each meeting receives a cash report which:

- Summarises the cash position against the forecast position.
- Reconciles the cash balance to the Trust's underlying cash balance , after adjusting for non recurrent items.

The cash report is being enhanced through the use of sensitivity analysis for key assumptions and inputs to show the potential cash flow impact of key variables.

Overall sales ledger debt reduced by £3.4m, reflecting the recovery of debt.

Purchase Ledger Payables

Despite the increase in payments in March, in month trade payables increased by £6.3m due to invoices being received in month.

BPPC

Cumulative end of year performance was 94% for value and 93% for volume of invoices processed was achieved in March, against the target of 95%.

The Trust has implemented a 'No PO, No Pay Policy' from 1st April 2022, which will strengthen financial controls and improve the efficiency of the purchase to pay process, supported by the use of a more automated 3 way matching process. The objectives of the improvement plan reflect the current challenges of the procurement to payment process, especially in the invoice processing stages.
